

**RESOLUTION
OF THE
EL DORADO HILLS ASSOCIATED FIREFIGHTERS**

After careful and thoughtful consideration of the Comprehensive Fiscal Analysis (CFA), testimony from El Dorado Hills and El Dorado County Officials, and comparisons to other similar incorporation efforts within California; the El Dorado Hills Associated Firefighters feel that the CFA has multiple flaws that will adversely affect the safety of El Dorado Hills Residents and their property.

Due to the shortfalls of the CFA it is very likely that the proposed "City" would have a budget crisis requiring the new city council to either reduce services or raise fees (taxes). Either of these possibilities is an unacceptable risk to the community members that we have protected with the highest level of commitment and service since 1963. Due to this risk, it would be irresponsible of this association not to take a position against an issue of this magnitude that could have devastating effects on the community that we are proud to protect.

The El Dorado Hills Associated Firefighters hereby adopt a position against the incorporation of El Dorado Hills.
